Principal Investigator at Constructor Labs. Dual PhD in Computer Science and Cognitive Neuroscience with a mathematics background. Once a VLSI engineer at Apple. Focusing on machine learning for bioinformatics, neuroscience, and computer vision.

PROFESSIONAL EXPERIENCE

Constructor Labs

Bremen, Germany

Principle Investigator

June 2026–Present

- Human-AI Fusion & Cognitive Wearable Intelligence project

Frankfurt Goethe University

Frankfurt, Germany

Research Associate at Prof. Roig's Computational Vision and Artificial Intelligence lab

Dec 2024–Present

- Awarded a Hessian.AI Grant “Cognitive Neural Architecture Search” to lead a research group focusing on identifying artificial neural network architectures with brain-like organizational properties
- Course instructor and thesis supervisor

Machine Learning Consultant

Remote

Built ML systems and infrastructure for startups of various growth stages, focusing on full-stack and backend solutions using modern frameworks and cloud tools

Jan 2023–Dec 2024

- **Jience** (2024): Developed a recommendation system for a job matching platform
Tech stack: Next.js, Flask, Python, MongoDB, Weaviate, Google Cloud Functions
- **Ancesi.ai** (2023): Developed an agentic b2b marketing system agent.
Tech stack: Flask, Python, Firestore, Weaviate, SQL, Google Cloud Functions
- **GamerTag** (2023): Implemented an embedding-based social recommender system
Tech stack: Python, Zilliz, AWS

Frankfurt Institute for Advanced Studies

Frankfurt, Germany

Research Fellow

Nov 2022–Nov 2024

- Co-advised by Prof. Cichy at the FU Berlin and Prof. Roig at Frankfurt Goethe University
- Course Instructor: Taught 4 semesters of “Pattern Analysis and Machine Intelligence Seminar”
- Thesis Supervisor: Mentored 9 junior researchers, resulting in several conference publications

Apple

Haifa, Israel

Engineer

Mar 2013–Aug

- Embedded development, Circuit design and verification with Verilog and systemVerilog Assertions.

EDUCATION

MICHIGAN STATE UNIVERSITY

Dual PhD in Computer Science and Cognitive Neuroscience

Thesis: Machine Learning Approaches for Processing and Decoding Attention Modulation of Sensory Representations from EEG

Michigan, USA

Oct 2022

MICHIGAN STATE UNIVERSITY (Fulbright IIE Scholarship)

Masters in Engineering with focus on Natural Language Processing

Thesis: Interactive Human-Robot One-Shot Task Structure Learning from Demonstration

Michigan, USA

Aug 2017

TECHNION - ISRAEL INSTITUTE OF TECHNOLOGY

Bachelors of Science in Mathematics

Haifa, Israel

Jun 2013

TECHNION - ISRAEL INSTITUTE OF TECHNOLOGY

Bachelors of Science in Computer Science

Haifa, Israel

Jun 2013

ADDITIONAL SKILLS

- **Machine Learning:** I train robust models that work with real world data
PyTorch, Sklearn, Numpy, Pandas, OpenCV, Slurm, MLflow, C++
- **Full Stack Development:** I build accessible applications to carry my work beyond the walls of academia
RestfulAPIs, VueJS, Bootstrap, PyQt, Flask, MongoDB, SQL
- **Experimental Psychology:** I Design and run behavioral, eye-tracking, EEG, and fMRI experiments
Matlab, FreeSurfer, EEGLAB, PsychoPy, E-Prime, SPSS
- **Hardware and Embedded Development:** When the hardware I need does not exist I build it
FPGA Programming, Verilog and SystemVerilog Assertions, x86 Assembly

LANGUAGES

- English (Full Working Proficiency)
- German (CEFR A2)
- Arabic (Native Speaker)
- Hebrew (Native Speaker)

DISTINCTIONS AND AWARDS

- **Dissertation Completion Fellowship** MSU Graduate Office 2021
- **Cultural Heritage Fellowship** Matrix center for digital humanities & social sciences 2020
- **Graduate Office Fellowship** MSU Graduate Office 2020
- **Fulbright Scholarship Program for International Educational Exchange** 2015-2017
Granted by the U.S. Bureau of Educational and Cultural Affairs.
- **Technion Honor Role** Awarded to top 10% of students in each program 2013

ACADEMIC GRANTS

- | | | |
|--|-----------|---------|
| <i>Human-AI Fusion & Cognitive Wearable Intelligence</i> by Constructor Tech | 850,000 € | 2026-29 |
| <i>Cognitive Neural Systems Architecture Search</i> by Hessian.AI | 100,000 € | 2025 |

ADDITION EXPERIENCE

Project director for the Refugee Outreach Collective “Global Classroom”, a partnership with Central Michigan University. The project expands educational access to individuals experiencing displacement at Malawi Dzaleka refugee camp through participation in accredited online classes.

PUBLICATIONS

My research is at the intersection of Computer Science and Cognitive Neuroscience. Generally, conference proceedings are considered more prestigious in computer science, while journal publications are preferred in psychology. * marks joint first authorship with students I supervised, or the corresponding author position.
